

## **Finding of Suitability to Lease**

Temporary Sanitary Sewer Force Main Connection and Easement  
At Naval Weapons Station – Cheatham Annex  
York County, Virginia

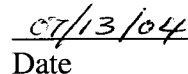

In accordance with ASN I&E Memorandum of 22 December 1993, I have reviewed the Environmental Baseline Survey (EBS) checklist concerning this property. The proposal is to provide the Jamestown Yorktown Foundation a temporary sanitary sewer force main connection and easement. This easement will be located within a railroad right-of-way within the Cheatham Annex facility boundary.

An EBS checklist for easement site was prepared to determine whether any areas of potential environmental concerns exist at the property and to determine if the subject property is suitable for lease. This action is a new license. The following statement applies to the subject property:

The EBS checklist indicates that Hazardous substances or petroleum products are not known to have been released, treated or disposed of at the location.
